**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 22, replace "(xi) a combination of any other above listed surfactants" with "(xi) a combination of any other above listed surfactants;  
wherein said emulsified composition has a viscosity in the range of about 200 to about 2,000,000 cPs measured on a Brookfield Viscometer with a No. 7 spindle at 20 rpm at 25° C"

This amendment adds a limitation from claim 1 into claim 22 in order to distinguish the claim over the prior art. No new matter is added.

Authorization for this examiner's amendment was given in a telephone interview with Chris Hilker on 6/26/08.

***Statement of Reasons for Allowance***

1. Claims 1, 5, 8-11, 15-17, and 19 are allowed for the reasons set forth in the office action mailed 1/9/08. Applicant has submitted a declaration by Filippini, dated 9/7/07, unequivocally stating that the subject matter of US PG Pub. No. 2004/0176263 was the declarant's own work. This declaration is sufficient to disqualify the '263 publication as prior art under 35 USC 102(e) and therefore overcomes the rejection set forth in the

office action mailed 6/19/07. See MPEP 716.10. Cahoon, as discussed in prior office actions, discloses a water-in-oil emulsion comprising water, oil, a thickener, and an additive, but gives no teaching or suggestion as to the Brookfield Viscosity of the emulsion. Stewart discloses an emulsion containing a thickener, with a viscosity of between 2000 and 4000 cps, but only discloses oil-in-water emulsions, contrary to the water-in-oil emulsions presently claimed.

Claim 22 has been amended to include the limitations regarding the surfactants and Brookfield Viscosity of the emulsion from claim 1, and is therefore also allowable.
